

# Michelle Williams, Heaven

(Carl Thomas)

Now that it's over  
There's no more use for guns and wars  
Costs me a lifetime, just to gain this life's reward  
They say streets of gold  
Can you imagine somewhere where life will never ends?  
No one ever grows old  
Oh my brother, please come with me

It's what I live for  
A place where love will never cease  
Willing to die for  
Heaven is where I want to be

(Michelle)

There are instructions that we must follow to a t  
In order to reach them  
Heaven is where I want to be

They say streets of gold  
Can you imagine somewhere where life will never ends?  
No one ever grows old  
Oh my brother, please come with me

It's what I live for  
A place where love will never cease  
Willing to die for  
Heaven is where I want to be

No more night  
There is a place where there'll be no more crying, yeah  
And He is Life  
Counting those days when we meet in the place

Willing to die for  
(Ooh yeah)

It's what I lived for  
A place where love will never cease  
Willing to die for  
Heaven is where I want to be  
(I want to be)

It's what I lived for  
A place where love will never cease  
Willing to die for  
Heaven is where I want to be  
(I want to be)

It's what I lived for  
A place where love will never cease  
Willing to die for  
Heaven is where I want to be  
(I want to be)

It's what I lived for  
A place where love will never cease  
Willing to die for  
Heaven is where I want to be  
(I want to be)
