

Midasuno, Facedown

Stare at the line 13 times
Down while you're in the frame
Pry open your mind
Trust in your kin second skin
Sound out turn on your own
The shards of design
Call it what you want, I dissolve

I hope they find you face down
When they find you
Face down
If we get caught on the way down
We'll deny this

Grasp in the darkness for answers
Collide at the wounds
This volume deludes
Symbols and statues of fiction
The haunt and delay
These pictures display
