

Midasuno, Samuel L

Champion a cause that you don't understand
Vision and rumour led you astray
Rule with your heart (not your head-that's the wrong way)
Decision on truth what you said

Out there they put our ghosts in the rockets
Oceans of hope all wish we'd choke if we taught it
Its all undercover they said (x2)

Blackmail and white lies
Through trainee whiskey eyes
Perception no object on trail
A cheap neon city the friction within me
In daylight we're destined to fail

Out there they put our ghosts in the rockets
Oceans of hope all wish we'd choke if we taught it
Its all undercover they said (x2)

Yeah we were caught out
Caught out(x2)
Yeah we were caught out

Champion a cause that you don't understand
Vision and rumour led you astray
Rule with your heart (not your head-that's the wrong way)
Stick to the groove that you've tread

Out there they put our ghosts in the rockets
Oceans of hope all wish we'd choke if we taught it
Its all undercover they said (x2)

Yeah we were caught out
Caught out(x2)
Yeah we were caught out

Yeah
