

# Miguel Bose, Give Me Your Love

What is our love?  
Pieces of pain  
Why do we choose  
Only to blame?

Half truths, white lies  
Cold nights, love dies  
But I won't sit by.

Now give me your love  
Please, give me your love  
I want your love, I want your love.  
Now give me your love  
Said give me your love  
Cos I want your love, I want your love.

Once we flowed free  
Had love to spare  
You can't think back  
When, how or where.

Why waste how lives  
I can't live lies  
I'll beg, I'll cry...

Now give me your love  
Said give me your love  
Cos I want your love, I want your love.  
Hey give me your love  
Please give me your love  
Cos I want your love, I want your love...

Now give me your love  
babe give me your love  
Cos I want your love, I want your love.  
Right now give me your love  
You'd better baby now give me your love  
Cos I want your love, I want your love...  
Your love...

I need it  
I want it  
Got to have you  
Give me your love
