

Miguel, waves (ft. Travis Scott)

Set it up, keep rolling, rolling, drop it
Baby drop it like your stalling, stalling tonigh
I wanna ride that wave
Body built for the beach,
Do you got that ocean?
Body surf, don't sleep, baby surf on me

Don't stop, don't stop, I wanna ride that wave
All night, all night, I'm gonna ride that wave
Look here, I'm gon surf in it baby
Get turnt in it baby, put work in it baby
Keep working it while I ride that wave

Put it out, I'm on fire, fire
That's what I'm about, take me higher, higher, tonight
I'm gonna ride that wave
You got a little body built for the beach
Do you got that ocean?
Body surf, don't sleep, baby surf on me, woman

Don't stop, don't stop, I wanna ride that wave
All night, all night, I'm gonna ride that wave
Look here, I'm gon surf in it baby
Get turnt in it baby, put work in it baby
Keep working it while I ride that wave

[Travis Scott:]

I'ma make the waves, just bring your surfboard
I've been offshore, I've been offshore
Somewhere shaded with my hair braided
Hate to tell you I couldn't make it
But be your man, I can be that later
Right now I might pull up on you on my surfboard like I'm [?]
Lavish shit that I might forget
I got e-mails, texts, I ain't read those yet
Replying to all those needs you said
Like moving on, I might feel that way
But lately I've been hoping for change
If you catch that wave won't you surf to me yeah?
Damn right girl, you are a bad bitch
And she finish my way, I gotta cash in
I take a late night swim, been a minute
Pussy so wet, always drown when I'm in it
Doing 105 on the 101,
She told me don't stop but I'm already done

Don't stop, don't stop, I wanna ride that wave
All night, all night, I'm gonna ride that wave
Look here, I'm gon surf in it baby
Get turnt in it baby, put work in it baby
Keep working it while I ride that wave
