

Mike Candys, Sunshine (Fly So High) feat. Sandra

This will be a good night
Uh, yeah!

Come and make me fly so high (so high)
I ain't to the sky
Come and make me fly (fly) so high (so high)
On the sunshine in the sky

I typed a wall in this endless space
While I'm sitting in my room
I'm gonna lift this lonely house
Go to a place where I'll find you

I feel this will be a good night, this will be a good night
We make your dreams come true

I see this will be a good night, this will be a good night
Just for me and you

Come and make me fly so high (so high)
I ain't to the sky
Come and make me fly (fly) so high (so high)
On the sunshine in the sky

There's a secret for everyone
Something we all are looking for
Just have to leave our loneliness
To find the truth is so much more

I feel this will be a good night, this will be a good night
We make your dreams come true

I see this will be a good night, this will be a good night
Just for me and you

This will be a good night
Mhm, yeah!
Make me our dreams come true

I feel this will be a good night, this will be a good night
We make your dreams come true

I see this will be a good night, this will be a good night

Come and make me fly so high (so high)
I ain't to the sky
Come and make me fly (fly) so high (so high)
On the sunshine in the sky

I feel this will be a good night, this will be a good night
We make your dreams come true

I see this will be a good night, this will be a good night
We make your dreams come true
