

Mike Francis, Together

I love you my baby,
You won't see a change in me
They say I'm just a dreamer,
They could never know my dreams.
Oooh

I'm lovin' ya, ladies
Everyone a special kind
Sweet little love sensations
That always keep love out of sight
Out of sight, love's out of sight

Now you you
Now you broke my heart in two.
Once I can reflake it
Come on baby,
We can stay together, again
Going on together, my friend
Together, again
Going on together, my friend

I love you my lady,
And I'm still in love with you
You never talk about your need
Ooh I'm afraid to tell you
What you're feelin' about me.

I love you my baby, yes.
And I'm so glad you're here again
I know that there's a part,
Whoa a part of you in all my dreams.
(all my dreams)

Now you you
You know you broke my heart in two.
Now I can lay my head down,
And close my eyes,
'cause I know we're together, again
Going on together, my friend
Together, again
Going on together, my friend

Now you you
You know you broke my heart in two.
Now I can lay my head down,
And close my eyes,
'Cause I know we're together, again
Going on together, my friend
Together, again
Going on together, my friend
Together, again
Going on together, my friend
Together, again
Going on together
Together, again
Going on together
Together, again
Going on together
