

# Mike & The Mechanics, Let's Pretend It Didn't Ha

Supposin' we said it didn't happen  
Didn't happen at all  
Didn't happen at all

Empty and gone  
There is nothing left within  
One penny in a tin  
Makes all the noise

You don't understand  
Nothing stays the same  
Situations change  
And It's all different now  
I've made my choice

Chorus:

Let's just pretend it didn't happen  
Supposin' we said it didn't  
Come down that way at all  
Let's just pretend it didn't happen  
Did it happen at all  
Didn't happen at all

I thought at the time  
When you cut me to the core  
It hurt and made me sore  
In time it would mend

It hasn't you see  
I forgive but can't forget  
I tried so hard and yet  
I'm afraid it's the end  
We can never be friends

(Chorus)

Does it matter at all?

No going back  
We can't undo the past  
Oh you know it's built to last  
It outlives you and I

I'm trying to say  
In this time and in this place  
Here and now and face to face  
With a tear eye to eye  
It's goodbye

(Chorus x2)
