

# Mike & The Mechanics, My Little Island

Welcome to my little island  
Though it's not much to look at I know  
But it's somewhere to come  
When things have slowed down  
You can stretch out and let yourself go

Welcome to my little island  
Just relax get away from it all  
When the people and crowds  
Get too noisy and loud  
You can slip out and over the wall  
Just give my little island a call

When I came to my little island  
Well I wasn't too certain at first  
Far away from my friends  
And the things I depend on  
I guess I had feared for the worst  
Now all my reservations reversed

Come on over to my little spot  
Where it's never too cool and it's  
never too hot  
You can dance on the beach  
You can reach for the stars in the sky

Welcome to my little island  
This is paradise you can't deny  
And we all journey here  
When we've conquered our fears  
Are you willing to give it a try?  
Then wave your little island goodbye

Come on over to my little spot  
Where it's never too cool and it's  
never too hot  
You can dance on the beach  
You can reach for the stars in the sky  
Welcome to my little island
