

Mikel Johnson, In this box

In this box baby

I'm lost

In this box where my body rocks

I wanna break free and burn down the blocks
see my body's flipping I'm a bad guy kicking
like a freak I shock

In this box where my body rocks

I wanna break free and destroy the locks
see my body's flipping I'm a bad guy kicking
like a freak I shock

Watch this body working

but never cross the line

one step further and this man will hurt ya

you'll be the victim to his crime

watch out where you're standing

better hide your face from me

once I keep you in my mind it's too late

you won't be saved from me

But if sugar me you can taste for free

I will burn you up and be your man tonight

come and use the key let my body free

everything I do will make you feel alright

In this box where my body rocks

I wanna break free and burn down the blocks

see my body's flipping I'm a bad guy kicking
like a freak I shock

In this box where my body rocks

I wanna break free and destroy the locks

see my body's flipping I'm a bad guy kicking

like a freak I shock

When you sleep you're talking

about the things you're scared to do

your body's sweating and the fear you're getting

will take control of you

You wake up from a nightmare

that seemed to be so real

you find those things disgusting

but that's the way you feel

Bridge

So come and sugar me you can taste for free

I will burn you up and be your man tonight

come and use the key let my body free

everything I do will make you feel alright

Chorus

In this box where my body rocks

I wanna break free and burn down the blocks

see my body's flipping I'm a bad guy kicking

like a freak I shock

In this box where my body rocks

I wanna break free and destroy the locks

see my body's flipping I'm a bad guy kicking

like a freak I shock

Chorus (soft gesungen)

In this box where my body rocks

I wanna break free and burn down the blocks

see my body's flipping I'm a bad guy kicking

like a freak I shock

Rap

See my body's flipping - boom boom I'm kicking

Watchin' me move make da home girls freakin'

Like a watch I'm tickin' when my body rocks

I'm a locked down danger In the box
