

Miley Cyrus, D.R.E.A.M. (feat. Ghostface Killah)

you're in my bed uninvited
it's fine cause I am in a mood
hope you don't mind of I spike it
we'll drink, it's just me and you

and you know we're gonna be alright
we'll be sleeping on a red-eye flight
keep up with me till the end of the night

always last to leave the party
drugs ruled everything around me
I'd wake up with new tattoos on my body
drugs ruled everything around me
hit the ..
with the tools pop the molly
all the tools in my room not that crawly
we're ll just tryna feel the lonely
drugs ruled everything around me

drugs ruled everything around me
drugs ruled everything around me

these planes are all UFOs
and this city in outer space
it's better than where we came from
i think that we both should stay

Coz you know we're gonna be alright
we'll be sleeping on a red-eye flight
keep up with me till the end of the night

always last to leave the party
drugs ruled everything around me
I'd wake up with new tattoos on my body
drugs ruled everything around me
hit the ..
with the tools pop the molly
all the tools in my room not that crawly
we're ll just tryna feel the lonely
drugs ruled everything around me

drugs ruled everything around me
drugs ruled everything around me
drugs ruled everything around me
drugs ruled everything around me

the drug rule everything around me
you could be a king
I got it all in my store
you should crown me
Purple Perc, sticky green Mollies, sippin lean
got the white that's sure to light the floor like in Billie Jean
Scarface night
500 thousand on the pinkie
Broadway ice
we throw bangers at wedding and you' all throw rice
lollapalooza, Coachella custies, that's my type
party all night
