

Miley Cyrus, One in a milion

How did I get here
I turned around
And there you were
I didn't think twice or rationalize
Cuz somehow I knew
That there was more than just chemistry
I mean I knew you were kind of into me
But I figured it's too good to be true
I said pinch me where's the catch this time
Can't find a single cloud in the sky
Help me before I get used to this guy
They say that good things take time
But really great things happen in the blink of an eye
Thought the chances to meet somebody like you were a million to one
I can't believe it
You're one in a million
All this time I was looking for love
Trying to make things work
They weren't good enough
Til I thought I'm through
Said I'm done
Then stumbled into the arms on the one
You're making me laugh about the silliest stuff
Say that I'm your diamond in the rough
When I'm mad at you
You come with your velvet touch
Can't believe that I'm so lucky
I have never felt so happy
Every time I see that sparkle in your eyes
They say that good things take time
But really great things happen in the blink of an eye
Thought the chances to meet somebody like you were a million to one
I can't believe it
You're one in a million
All this time I was looking for love
Trying to make things work
They weren't good enough
Til I thought I'm through
Said I'm done
Then stumbled into the arms on the one
I said pinch me
Where's the catch this time
Can't find a single cloud in the sky
Help me before I get used to this guy
They say that good things take time
But really great things happen in the blink of an eye
Thought the chances to meet somebody like you were a million to one
I can't believe it
They say that good things take time
But really great things happen in the blink of an eye
Thought the chances to meet somebody like you were a million to one
I can't believe it
You're one in a million
One in a million
You're one in a million
