

Miley Cyrus, Pumpin' Up The Party

Hey
Get up
Get loud
Start pumpin' up the party now
Start pumpin' up the party now

It's the same old, same kind
But we don't feel the race in time
Not so boys that we can find will turn it away
My friends, my kind
No one's gettin' left behind
If they did it'd be a drag
And that's why we say
Let the music start a revolution
No time to play it safe

Hey
Get up
Get loud
Start pumpin' up the party now
Start pumpin' up the party now

They can
We can
Parents might not understand
How we come without a plan
Well that's what we do
We're all here (Let's go!)
Gotta make this party go
Together we can make it flow
That's what we'll do
The music's gonna start a revolution
Too late to play it safe

Hey
Get up
Get loud
Start pumpin' up the party now
Start pumpin' up the party now

We don't have to pay by numbers ??
Let our voice come out from under
Hear it cry
Feel the thunder
It's time to lose control

Hey
Get up
Get loud
Start pumpin' up the party now
Start pumpin' up the party now
Pumpin' up the party now
Party now, party now

Hey
Get up
Get loud
Start pumpin' up the party now
Start pumpin' up the party now
Start pumpin' up the party now
Start pumpin' up the party now
