Closer

I can tell by the things you do  
there's a wall between me and you  
I can tell by the things you said  
all the thoughts running through your head  
There's a lie hidden in your smile  
it's been going on for quite a while  
I can tell by the things you said  
all the thoughts running through your head

Closer to me  
I hope our love will find a way  
Closer to me  
Tell me why can't we try  
is it so hard to come  
Closer to me  
I hope our love will find a way  
Closer to me  
Tell me why can't we try  
is it so hard to come
