Another lover
Another baby
Another reason
To be with someone else
Another promise
Another alibi
Another lifetime
Just filled with wondering why
Ouch damn
This is gonna hurt again
Oops no, should've known
That this is how it goes down
When you're around
Ouch damn
This is gonna hurt again
Oops no, should've known
That this is how it goes down
When you're around
Another party
Another evening
Another reason to be with someone else
Another promise
Another alibi
Another lifetime
Just filled with wondering why
Ouch damn
This is gonna hurt again
Oops no, should've known
That this is how it goes down
When you're around
Ouch damn
This is gonna hurt again
Oops no, should've known
That this is how it goes down
When you're around
