

Minelli, Could Be Something

Could be something
I know we could be something tonight
Could be something
I know we could be something tonight

Could be something
I know we could be something tonight
Could be something
I know we could be something tonight

They say pretty girls have cracked phone screens
And I ain't gonna lie
I'm always dropping it probably most weeks
Every night
Like every time

I go out with all my girls till the morning
And we go too far
Well at least we know that we ain't borin

I know I can be a bit difficult
I'm just playing
I'm just playing

Before we make the conversation physical
I'm just saying

Lets talk about our emotions
Feelings in the dark are drifting
Just outta focus
You're all that I want
I know we're caught in the moment
I hope that's it's worth it
But I know we could be something
I know we could be something tonight

Could be something
I know we could be something tonight
Could be something
I know we could be something tonight

Don't freak out I ain't calling it love yet
But I think I could
Cos the look in your eyes got me falling
For your touch
Can't get enough

I know I can be a bit difficult
I'm just playing
I'm just playing
Before we make the conversation physical
I'm just saying

Lets talk about our emotions
Feelings in the dark are drifting just outta focus
You're all that I want
I know we're caught in the moment
I hope that's it's worth it

But I know we could be something
I know we could be something tonight
Could be something
I know we could be something tonight

I know we could be something
I know we could be something tonight
Could be something
I know we could be something

Saturday like a movie
Loving the way you move me
Nothing ain't gonna stop me
Nothing ain't gonna stop me

Saturday like a movie
Baby we're making memories
Nothing ain't gonna stop me
Nothing ain't gonna stop me

Could be something
I know it could be something tonight
