

Minnie Riperton, Memory Lane (Single Version)

I stumbled on this photograph
it kind of made me laugh
it took me way back
back down memory lane
i see the happiness, i see the pain
where am i?
back down memory lane
i see us standing there
such a happy, happy pair
love beyond compare
look a there, look a there
the way you held me
no one could tell me that love would die
oh why did i have to find this photograph
i thought i had forgot the past
now i'm slippin' fast
oh back down memory lane
i feel the happiness, i feel the pain
here am i back down memory lane
i'm in the sunshine
i'm in the rain
i thought it was over
here i go again
the way you held me
no one could tell me that love would die

i don't wanna go
travel up and down
faster than the speed of sound
back down memory lane
you steal my foolish heart
don't let this feeling start
back down memory lane
i don't wanna go
back down memory lane

save me
save me

back down memory lane

save me
save me
save me, save me, save me

back down memory lane
