

# Miranda Lambert, Smokin' and Drinkin' (feat. Little

It was one of those times when a real good time felt like a long time ago  
It was one of those fires that burned all night and made your blue jeans smell like smoke  
Hangin' with friends, goin' against our upbringing', smokin' and drinkin'

It was one of those girls and one of those guys who didn't know quite what to do  
We were goin' along with what was goin' on, sayin', "I think I love you."  
And I think about us now every time that I go out smokin' and drinkin'

Smokin' and drinkin' on the weekend like we did back in the day  
Smokin' and drinkin' gets ya thinkin' about the one that got away  
Here's to all those nights when all we felt was like smokin' and drinkin'

We were livin' it up sayin' this town sucks so we painted it on the bridge  
We were young in love to not know enough that those were the days that we're gonna miss  
But damn we know it now cause it's all we talk about smokin' and drinkin'

Smokin' and drinkin' on the weekend like we did back in the day  
Smokin' and drinkin' gets ya thinkin' about the one that got away  
Here's to all those nights when all we felt was like smokin' and drinkin'
