

Miss Angie, Dancing In My Head

Lying around with no place to go
You can sing this, you can feel it
In the presence, fullness of joy
You can sing this, you can feel it
He wraps me in healing light
Sick in bed but dancing in my head
He wraps me in healing light
Sad tonight, dancing in the morning light (x2)
Birdies sing to me
They tell me Jesus heals me
Dancing around with no place to go
You have crowned me, made me whole
He wraps me in healing light
Sick in bed, but dancing in my head
He wraps me in healing light
Sad tonight, dancing in the morning light
Dancing in the morning light
