

MISSIO, Say Something

It's a constant fight accepting what I'm good at
Operator, give me your hand
It's a constant fight rejecting good behavior
I'm just one in seven billion
Say Something
Say Something

I believe that war was made to ruin people
Mr. General show me your hand
I believe that drugs were all created equal
Just like every human being
Say Something
Why don't you say something
Say Something
Why don't you say something
Say Something
Why don't you say something
Say Something
Why don't you say something

Do not waste my time with your investigations
I'm a traitor and so are you
Do no waste your time trying to rob the rich
It's like pissing on a house fire
Say Something
Say Something
Say Something
Say Something

You can dominate the fate of your abuser
Operator, give me your hand

Say Something
Why don't you say something
Say Something
Why don't you say something

Say Something
Say Something
