Amazing

Im gonna tell you

Bout a little Secret

Gonna show you the place where I keep it

Its a revelation, and the information

Will probably blow you away

It ll cause an earthquake

Or a simple headache

But at least would you listen for my sake

When I turn off the light every night, Im dreamin

Of you holdin me tight, and thats imagination

Would you turn off the light, stay here tonight

I promise baby I will always stick to you, cause everything you do

Is so amazing

Tell me what youre thinking, any recognition

Just follow your first intuition

Are you gonna run now, or could we have some fun now

Will it be hey hallo or just ciao?

When I turn off the light every night, Im dreamin

Of you holdin me tight, and thats imagination

Would you turn off the light, stay here tonight

I promise baby I will always stick to you, cause everything you do

Is so amazing

Any word, any sign

Anything would help me now

Dont be scared to cross that line

Make your mind up anyhow

Are you gonna sit there

Are you going nowhere

Whats it gonna be now

Are you gonna make up your mind

When I turn off the light

Every night, Im dreamin

Of you holdin me tight, and thats imagination

Would you turn off the light, stay here tonight

I promise baby I will always stick to you, cause everything you do

Is so amazing
