

Mnemonic, Dreamstate Emergency

(Let's inject the venom)

I have not slept
For many days
Yet I have dreamt
Of the unseen
Now I have found
This place in myself
I have dreamt
Of no control

And then I will see what
The hate it can take
I will stand up to see
What I really can be
I'll cry if I need to
But I'll proceed to
A state of hate and
To be a vision of me

I have dreamt of this for so long
I feel my inner self will grow strong

And so I will break down
I'm blind to your ideas
I don't want to be me
I can't stand the pain
And then I will see what
The hate it can take
I will stand up to see
What I really can be

I have dreamt of this for so long
I feel my inner self will grow strong
If I can only be what they want
I'm me, exploding into history

I dream of leaving this
Kill this and never come back
Never fuckin' return

I dream ...of me
Kill this..my dream
I dream ...of me
Kill this..my dream
I dream ...of me
Kill this..my dream
I dream ...
I dream of me!

I have not slept
For many days
Yet I have dreamt
Of the unseen
Now I have found
This place in myself
I have dreamt
Of no control

And then I will see what
The hate it can take
I will stand up to see
What I really can be
I'll cry if I need to

But I'll proceed to
A state of hate and
To be a vision of me

I have dreamt of this for so long
I feel my inner self will grow strong
If I can only be what they want
I'm me, exploding into history
