

# Mnemonic, Dreamstate Emergency

(Let's inject the venom)

I have not slept  
For many days  
Yet I have dreamt  
Of the unseen  
Now I have found  
This place in myself  
I have dreamt  
Of no control

And then I will see what  
The hate it can take  
I will stand up to see  
What I really can be  
I'll cry if I need to  
But I'll proceed to  
A state of hate and  
To be a vision of me

I have dreamt of this for so long  
I feel my inner self will grow strong

And so I will break down  
I'm blind to your ideas  
I don't want to be me  
I can't stand the pain  
And then I will see what  
The hate it can take  
I will stand up to see  
What I really can be

I have dreamt of this for so long  
I feel my inner self will grow strong  
If I can only be what they want  
I'm me, exploding into history

I dream of leaving this  
Kill this and never come back  
Never fuckin' return

I dream ...of me  
Kill this..my dream  
I dream ...of me  
Kill this..my dream  
I dream ...of me  
Kill this..my dream  
I dream ...  
I dream of me!

I have not slept  
For many days  
Yet I have dreamt  
Of the unseen  
Now I have found  
This place in myself  
I have dreamt  
Of no control

And then I will see what  
The hate it can take  
I will stand up to see  
What I really can be  
I'll cry if I need to

But I'll proceed to  
A state of hate and  
To be a vision of me

I have dreamt of this for so long  
I feel my inner self will grow strong  
If I can only be what they want  
I'm me, exploding into history
