Dogs, I think smarter, reach harder  
slugs travel much farther  
Nigga stompin' a Timberland wearing, face carver  
With the box cutter, top gutter  
I'll hover over you lames, Run for cover, into your brain (yea)  
You did your thang but, not very good  
And by the, looks of things, You can't come back to the hood  
This is not a good look for you my nigga  
Whats really poppin, Inquirin minds wanna know  
How you rocking them, new guns, we cope those  
In bulk, like we bought 'em in Cosco's  
Don't get yaself murked, wet shirt  
Said it first, hurry this that red alert  
You ain't gotta get bucked to know that this led'll hurt  
The sight of my Hammer, gotcha heart pumping  
Nerves twitching, Eyes jumping, heads will roll  
when the pound starts kicking  
You be missing  
Moms will be wearing that yellow ribbon  
While I'm somewhere in the Caimen Islands, chillin, Nigga.

(Chorus)

They wanna know, where the hood at, nigga we right here  
Live in the flesh with them Tec's and never scared  
Them guns we holdin', claustrophobic, we'll let 'em air  
Dump Dump, reloaded Amerikaz Nightmare
