

Moby, Forever

Two simple places
We wanted to go
Two simple things
You wanted to know

Everything around
I could not see
I wish I'd known
How much you loved me
Oh,
we could feel this way forever
[2x]

I watched the sun,
cause it touches you while you sleep
You gave me something,
that I wanted to keep

I see you smile you smile like a little child
And hold you crying when it all goes wild

Oh
We could feel this way forever
[6x]
