

Modern Talking, Blue eyed clour girl

It's 5 o'clock, I think of you
Live my life without you, and I'm feeling blue
I told you lies, love fades away
Oh I loved you baby but I didn't say
It's 5 o'clock, a lonely night
And I just remember we were side by side
I made mistakes, you went away
And now I know the words, that I didn't say
How can I fall (fall) in love (in love)
with a blue eyed coloured baby girl
How can you tell me, just tell me, it's forever, oh no
How can I fall in love
With the girl with the golden hair
How can you tell me, we can't be together, oh no
The night is gone, I couldn't sleep
I saw the old videos, I'll always keep
Day in day out, I'm missing you
Is there just a little chance, what can I do ?
The night is gone, I watched a star
Oh I have to face the future, you're so far
Some lies are true !
Can we stay friends
Tell me baby when will I see you again
