

Modern Talking, Fly To The Moon

I'm lost in you, I'm lost in love
What can I do, words not enough
I'm lost in space, I'm lost in you
Oh my babe, what can I do?
I'm lost in your eyes, in your disguise
Oh you can run, but you can't hide
I'm lost in space, I'm lost in you
Oh my babe, what can I do?

Fly to the moon
I'm coming soon
I swear to you
My baby blue
Fly to the moon for your sweet love
What can I do can't turn it off
I die for you and your sweet love tonight

We two are one and I'm still here
Together strong, don't disappear
I'm lost in space, I'm lost in you
Oh my babe, what can I do
Don't tell me lies under the sky
Where we had love, don't say goodbye
I'm lost in space, I'm lost in you
Oh my babe, what can I do
