

# Modest Mouse, She Ionizes And Atomizes

She ionizes and atomizes  
then turns to sunlight

He realizes and itemizes  
pulls harder than gravity

She ionizes and atomizes  
then turns to sunlight  
Florescent light bulbs will make  
an absence of dark but  
the light just ain't there still and she said,  
"I am feeling empty,  
The real lights can make you heavy but  
never ever really empty  
Florescent lights will always = Empty."
