

# Modest Mouse, The Stars Are Projectors

In the last second of life they're gonna show you how.  
How they run this show, sure, run it into the ground.

The stars are projectors, yea,  
Projectin our life down to this planet earth.  
The stars are projectors, yea,  
Projectin our minds down to this planet earth.

Everyone wants a double feature,  
They wanna be their own damn teacher, and how,  
The stars are projectors, yea,  
Projectin our lives down to this planet earth.

It's all about the moderate climates,  
You gotta be cold and be hot for sure.  
It's all about the moderate climates,  
You wanna be blessed and be cursed for sure.

All the stars are projectors, yea,  
Projectin our lives down to this planet earth.  
All the stars are projectors, yea,  
Projectin our lives down to this planet earth.

Everyone wants a double feature.  
They wanna be their own damn teacher, and how,  
All the stars are projectors, yea,  
Projectin our lives down to this planet earth.

You've got the harder part, you've got the kinder heart and it's true.  
I've got the easy part, I've got the harder heart ain't this true.  
Right wing, left wing, chicken wing.  
It's built on finding the easier ways through.

God is a woman and the woman is, an animal that animals man and that's you  
Was there a need for creation? That was hidin in a math equation and that's this.  
WHERE DO CIRCLES BEGIN?
