

Modwheelmood, Grow

I drew all my conclusions
I've crossed the bridge that no-one dares to cross
Got rid of all delusions once again
Everyone's welcome to the circus
Where no-one knows what's really going on
Take a ride, enjoy and focus
Focus, focus

It's not beautiful
Quite unpredictable
I'm changing, I'm changing
It's impossible
I need a miracle
I'm changing, you're changing
Now

Every time a new decision
Little things that keep me from moving on
In the time of indecision
Make me stronger, stronger

It's not beautiful
Quite unpredictable
I'm changing, I'm changing
It's impossible
I need a miracle
I'm changing, you're changing
Now

It's not beautiful
Quite unpredictable
I'm changing, you're changing
It's impossible
I need a miracle
I'm changing, you're changing

It's impossible
I need a miracle
I'm changing, you're changing
I'm changing, you're changing
Now
