Modwheelmood, If I Was You

And you want to know
Where to find the space in time that
You've been looking for
For so long

Where you wanna go
Where to find the space in time that
I've been looking for
for so long

Even though
I lost my mind a change in time
I long for what I got
To grow old

If I was you
Maybe we'd get through
Night's end
Wait until
Day breaks
Shorting all my promises

You rearrange all there is
Everything don't admit
Anything

Everyone i know
Is where to find the space in time that
You've been looking for
For so long

Unbelievable
I wish I might have
I wish I could have
I wish I wouldn't smoke
Anymore

Even though
I lost my mind
A change in time
I long for what i got
To grow out
If i was you
Maybe we'd get through
Night's end
Wait until
Day breaks
Shorting all my promises

You rearrange all there is
Everything, don't admit
Anything

Say goodbye to everything
Say goodbye to everything

If I was you
Maybe we'd get through
Night's end
Wait until
Day breaks
Shorting all my promises

You rearrange all there is

Everything, don't admit
Anything

Say goodbye to everything (x4)

Say goodbye to

*night sang
**you'll admit
