

Moe., Another One Gone

How you gonna go, my beautiful friend
It's been a sad covered road from again into end
Deny the light
And unlock the pen
Your gun and your knife
And your eyes descend
Wasted lives, wasted friends
Doesn't feel so good to be right again

Ahhh Ahhh
Ahhh Ahhh
Another one gone
Another one gone

Kurt Cobain, what a beautiful mind
lock the door and unscrew the spine
Scrutinize that undermine
If your hand in the bowl
Take over the sign
So much ridin' on the razors edge
Bullet hits bone
Like hammer on ledge

Ahhh Ahhh
Ahhh Ahhh
Another one gone
Another one gone

Blood on the dust, so much it's turning to mud
Remember, man, that you were bones and blood
Blood on the wall, and the curtain and rug
Try to kill the flame with a moonshine jug
Your house burns down
Who's gonna take the blame
Big brother George or Kurt Cobain

Ahhh Ahhh
Ahhh Ahhh
Another one gone
Another one gone

How you gonna go, my beautiful friend
Your life can't be longer
Got a message to send
Leap from the edge and start over again
How you gonna go, my beautiful friend

Ahhh Ahhh
Ahhh Ahhh
Another one gone x 8 (fading out)
