

# Moe Bandy, She Took More Than Her Share

All she said she wanted was a piece of me  
Even if the part she got could never be free  
So I gave her love that I knew you could spare  
But sweetheart she took more than her share

And the time it took for turning out the lights  
And the time it took for me to close my eyes  
She took the love we had and stripped it bare  
Yes sweetheart she took more than her share

All I meant to give her was a part of my time  
The part you leave alone most every night  
Now the love I had for you's no longer there  
Cause sweetheart she took more than her share  
Yes sweetheart she took more than her share
