

Moe., Opium

Give me some fire, and a piece of glass
Hear that train, floatin' past
On feathered tracks, with helium wheels
Ain't no coal, ain't no steel

Chorus:

Opium, won't you smile on my brain
Flowers and fog, you've got me feeling no pain
It's 8:00 AM, not a quarter past 3:00
Flowers and fog, you've gotta set me free

Deja vu, all over again
You wanna be my pal, my best-est friend
Hear that train, screamin' past
Out of control and off the tracks

Chorus:

Rescue me, you've got to rescue me
Rescue me, you've got to rescue me
Rescue me, you've got to rescue me
Rescue me, you've gotta set me free

Chorus:

Fast asleep, quick to die
Seen 'em go in the blink of an eye
Long white line, tied to the tracks
Little white lie, no looking back

Chorus: (2x)
