

# Molella, T.V.A.B

Thinking about the past now  
thinking of you and me  
always together playing  
and kissin behind the tree  
round and round , hand in hand  
walking down the street  
singin'the songs of love you liked !  
so i'm writing this song to say

Ti voglio ancora bene sai  
with all my heart , with all my soul  
restiamo ancora insiene noi  
I will never lie, i won't make you cry

I'm writing this song for you my baby  
hoping that you'll come by  
and i would like to kiss your tender lips  
i'm dreaming of you everynight  
i'm searching in my self to salve  
this point of loveliness  
but now i know you find my love  
we'll stay together again

Ti voglio ancora bene sai  
with all my heart , with all my soul  
restiamo ancora insiene noi  
I will never lie, i won't make you cry

I believe in our love  
i have a dream  
i'll promisse you  
all my life...  
i believe in our love  
and now you'll see  
i'll care for you  
all the time

Ti voglio ancora bene sai  
with all my heart , with all my soul  
restiamo ancora insiene noi  
I will never lie, i won't make you cry
