

# Moments In Grace, The Patient

An easier resolution medicine,  
Medicating scientists concentrating on the pills you are taking,  
We have proof that we will never be well,  
You want to stand there and wait for your life,  
An easier solution.

You're getting old and losing all you love,  
And proving your will is gone,  
You're moving on,  
You're loveless now.

The pain surrounds as the time runs out,  
You're loveless now,  
Block out the sound as time runs out.
