

Mondo Generator, Detroit

Here I sit alone
Ride through the Motor City
Crying inside
I'm dying inside
I can remember you
Like a photo, like a star
It moves like
I wanna be like you
I remember you

I'm covered in black
But I remember you
You ain't coming back
You

I see your face
And I feel fine
When I see your face

Last time you saw me
I'll never forget
You looked at me
Like we'd never met
Hold my head down
And look up to the sky
Crack a smile
I say goodbye
I remember you

I'm covered in black
I remember you
I'm still in black

All in time we die
In time we die

I remember you
I'm still in black
Never coming back
