

Moneen, Wrath Of The Donkey Remix

now you see, lost. now you know, lost.
when the hell did one goddamn thing go right in my life but you.
you said you weren't sure, you said you were scared
well guess what I was scared too.
we're glued to the hips, we're tied neck to neck,
our hands bond staples through the knuckles please.
it's a lifetime to wait.
now that we have each other now, security.
it's a lifetime to wait.
