

# Monet Monico, Mute

TV show I used to watch is on mute  
I see the picture, but hear no sound from you  
I try to change the channel  
But I can't get over you

Radio only plays sad songs  
And I can't seem to turn it off  
And no matter how hard I try  
I can't seem to say goodbye

You ignore me on the first ring of the telephone  
Are you with me or do you want to be alone  
I try to reach you  
But you haven't made yourself very clear  
Don't ignore me and just tell me, "My dear...  
Just mute  
You're on mute

My ipod won't play the song we used to play  
It only plays the song from yesterday  
I really want to forget the song we used to dance to  
But I can't seem to move

I try to write on my guitar  
But when I try I don't get very, very far  
But my ending, is my beginning  
It's all where we start

You ignore me on the first ring of the telephone  
Are you with me or do you want to be alone  
I try to reach you  
But you haven't made yourself very clear  
Don't ignore me and just tell me, "My dear...  
Just mute  
You're on mute  
Yeah

You won't let me spread my wings and fly  
And I can't seem to understand the reason why

You ignore me on the first ring of the telephone  
Are you with me or do you want to be alone  
I try to reach you  
But you haven't made yourself very clear  
Don't ignore me and just tell me, "My dear...

You ignore me on the first ring of the telephone  
Are you with me or do you want to be alone  
I try to reach you  
But you haven't made yourself very clear  
Don't ignore me and just tell me, "My dear...  
Just mute  
Yeah yeah  
You're on mute  
Yeah  
You're on mute
