

Monet Monico, My Melody

I've been waiting for a boy, a boy like you
To let the music take control
I never have felt the way I do
You make me feel so rockin' boy

Everytime I see you on stage
I just wanna scream and shout
I can feel every word you say
You're turning me inside out

I never thought I'd find a boy like you
To write a song that I can sing and rock out to
Every note I sing always stays on key
Oh oh oh oh
Cause you're my melody

I love it when you wear, wear your vans
Different colors everyday
I love when we, we hold hands
The feeling never goes away

Everytime we sing together
It all ties up in tune
Either we will last forever
Baby just me and you

I never thought I'd find a boy like you
To write a song that I can sing and rock out to
Every note I sing always stays on key
Oh oh oh oh
Cause you're my melody

Oh oh oh oh oh
So come on sing along
Oh oh oh oh oh
That's why I wrote this song
Oh oh oh oh oh
I'm never letting you go
Oh oh oh

I always wanted a boy like you
To be the one that I will always hold onto

I never thought I'd find a boy like you
To write a song that I can sing and rock out to
Every note I sing always stays on key
Oh oh oh oh oh
Cause you're my melody

I never thought I'd find a boy like you
To write a song that I can sing and rock out to
Every note I sing always stays on key
Oh oh oh oh oh
Cause you're my melody
