

# Monica, What My Heart Says (Love Song)

So let them say its wrong  
For me to love you  
They could never feel  
The way that I do  
When we kiss  
When were close like this  
They cant see inside my soul  
They cant know the love we know  
All they do is waste their time  
They can never change my mind  
Its what my heart says  
That is what I listen to  
Its what my heart feels  
That tells me (tells me)what to do  
Its what my heart knows  
Thats the only only truth I know is real  
All I hear is what my heart says to me  
What my heart says  
Let them say that im a fool  
To fall so deeply  
Cause they will never ever be  
Loved so completely  
How can they  
Even talk that way  
They cant see you through my eyes  
They cant feel this love inside  
All their words dont mean a thing  
They cant change the way I feel  
Its what my heart says  
That is what I listen to  
Its what my heart feels  
That tells me (tells me)what to do  
Its what my heart knows  
Thats the only only truth I know is real  
All I hear is what my heart says to me  
What my heart says  
And I have never felt so sure  
About anything  
See you are the one  
The one that I need  
It doesnt matter what they think or what they say  
Im loving you, anyway----  
Its what my heart says  
That is what I listen to  
Its what my heart feels  
That tells me (tells me)what to do  
Its what my heart knows  
Thats the only only truth I know is real  
All I hear is what my heart says to me  
What my heart says
