

Monika Ferens, Get Away

Lets do this thing!

We sing the praise for ourselves

We don't see where are go 'cause we don't care

Oh, Amen 'cause I forgot myself

Those wolves caught me and don't wanna let go

I'm whining louder then they is it bad or good?

I'm whining louder then they is it bad or good?

Give them body so they'll give you more than they may

But they can also kill you so we should run away

[Chorus]

I run away through the hell and heaven

Singing unknown song

I'm an angel but born from devil's womb

Tell me how much I'm worth

If I'll forget all your sins

Am I good girl?

Or maybe I'm a witch you're scared of?

I've been watching at the door all day

You didn't come so I guess you didn't really care

Didn't you wonder why youre alive

Ashes to ashes once again

Yes, I said, we come to life like it's a daily thing

Yes, I said, we come to life like it's a daily thing

If you give them body they'll give you more than they may

But if you feel they will kill you so better run away

[Chorus]

Run even if you can't find your feet

'cause they're gonna find you here

You can't rely on anybody

Even if you feel they will be a shield

Run even to the moon

I'll tell your patens you'll be soon

Run! Run! Run! Run!

Give them body so they'll give you more than they may

But they can also kill you so we should...

[Chorus 2x]
