

Monika Kazyaka, Be Here

Sometimes I drive so fast,
Just to feel the danger
But right now i feel like a piece of me is gone.
Without you I can't breathe,
I can't do anything at all.
Without you I feel lonely
But if you are somewhere just help me.
Just help me.
Just help me.
Just wait.

Stay with me,
Don't go away without me.
My love, my friend.
/2x

When you're gone the pieces of my heart is missing.
But I know that's right.
Everything with time is passing
The world is full of hate
But i know I must be strong, that's right.

Stay with me,
Don't go away without me.
My love, my friend.
/2x

Don't leave me /3x
Don't leave me, don't leave me
My love, my friend.
