Monrose, Burning

Big city life, big city night In the middle of cars and lights You came, made everything right With a touch of love

Didn't really wanna let you in Took a time to get under my skin Wanna see you again and again And now I'm all shook up

You don't make me feel lonely You don't try to control me Treat me like I'm the only Boy I'm burning up

You can tell that I want cha It gets stronger and stronger I can't hold it much longer Boy, I'm burning up (I'm burning up) I'm burning

Burning (3x) Baby I'm burning Burning (3x) Baby I'm burning Burning (3x) Baby I'm burning Burning (3x) Baby I'm burning

Hooked up on a Saturday night Like a breeze in the hectic life On the street in the morning light We're just one on one

Spent everyday on the phone Made me feel that I wasn't alone Didn't think it could be this strong We're just one on one

You don't make me feel lonely You don't try to control me Treat me like I'm the only Boy I'm burning up (I'm burning up)

You can tell that I want cha It gets stronger and stronger

I can't hold it much longer Boy, I'm burning up (I'm burning up) I'm burning

Burning (3x) Baby I'm burning Burning (3x) Baby I'm burning Burning (3x) Baby I'm burning Burning (3x) Baby I'm burning

Big city life, big city night

In the middle of cars and lights You came made, everything right With a touch of love

Hooked up on a Saturday night Like a breeze in the hectic life On the street in the morning light We're just one on one

You don't make me feel lonely You don't try to control me Treat me like I'm the only Boy I'm burning up (I'm burning up)

Burning (3x) Baby I'm burning Burning (3x) Baby I'm burning Burning (3x) Baby I'm burning Burning (3x) (Don't you know, don't you know that I'm burning? (2x)) Baby I'm burning

Baby I'm burning Baby I'm burning

Don't you know, don't you know that I'm burning?
