

Monrose, Strike The Match (I Am)

""Bahar:""

Pretty Baby with the blue Jeans on
You've been starin at me all night long
I know you want it
and you know it's wrong
But you don't worry about a thing do ya

""Senna:""

I feel you sweating me from over there
I see this girl you with but you don't care
Acting like I'm shy but
Boy you best beware
I can light your match and start a fire in here

"Chorus:"

I know you want it
I know you need it
And how I'm feeling
I really really really wanna
Strike the match strike strike the match
Strike the match strike strike your match

I know you want it
I know you need it
And how I'm feeling
I really really really wanna
Strike the match strike strike the match
Strike the match strike strike your...

""Mandy:""

Now I don't mind if we Doecee Doe
Do a little dance to service your ego
But I ain't tryin to take it out that door
You gotta tell your girl to leave

""Senna:""

Don't mean to interrupt a perfect date
But I need a man who only spins one plate
Flames are getting higher
and they just won't wait
Boy I know you're thirsty come and get your milkshake

"Chorus" x2
