

Monrose, We love to entertain you

Driving on the fastlane
Yeah we love to entertain
Momma told me I'm insane
All the boys know my name
Here we go spotlight on
Working hard all night long
Yeah I know you like this song
Cause Monrose is the number one

Bridge:

We share the passion for the moment yeah
We celebrate our time
There's something new to blow your mind
We'll do anything to make your dreams come true
Nothing less will do
Cause we love to entertain you

Chorus:

We love to entertain you
We love to entertain you
(We love to entertain you)
You can't match what we've got
On the catwalk in the club
From the bottom to the top
Ultra max non stop
Once again you say "oh"
We say "yes" we got the flow
Time for you to loose control
Are you ready for the show?

Bridge:

We share the passion for the moment yeah
We celebrate our time
There's something new to blow your mind
We'll do anything to make your dreams come true
Nothing less will do
Cause we love to entertain you

Chorus:

We love to entertain you
We love to entertain you
(We love to entertain you)
Love to love to

we love

Bridge:

We share the passion for the moment yeah
We celebrate our time
There's something new to blow your mind
We'll do anything to make your dreams come true
Nothing less will do
Cause we love to entertain you

Chorus:

We love to entertain you
We love
We love to entertain you

Chorus:

We love to entertain you
We love
We love to entertain you
We love to entertain you
We love

We love to entertain you
Love to love to
We love
We love to entertain you
