

Monsoon, Hit and run

Dont remember what he looked like
I was dazzled by the stars
Spinning like Cinderella
And I dont know what it was
That suddenly ran up my spine
Froze my cartoon heart at the stroke of midnight
Nobody there coulve stopped me couldve stopped me
Chorus
Hit and run what a night
Hit and run dynamite
And the sun keeps shining
Hit and run flash of light
And it burns lightning strike
And the world keeps turning
I admit I was tipsy
Cinderella turned into a gipsy
With a mix of Barbarella
And my head is full and Im feeling sore
My super powers dont work no more
Left me hypnotized,paralized,mesmerized
Dont know what happened to melts getting crazy
chorus
keep on driving
keep on driving
keep on driving
