

# Monster Magnet, Master Of Light

I'm afraid of nothing  
It's the only way to be  
Welcome to the rubber rooom  
It was made for you and me

Want to see how a snake can fly ?  
I believe that you can't say no  
Just get ready for the world outside  
It's insane, it's insane, it's insane

Keep your head looking up to the sky  
Keep the blood boiling down below  
You'll believe that a snake can fly  
I believe that you can't say no

I can shake now and I can show  
I can go where no one else goes  
Check your head now and hold on tight  
It's surfen' time with the master of light

Life's a big explosion  
With it's candy and it's pills  
And i can see why some of you  
Love your demons when you're ill

Let me smooth along your heart now  
Let me reach inside your head  
Life's a big explosion, ain't it cool?  
I'm Jesus, I'm Satan  
I'm anyone you want me to be  
You're broken, you're frozen  
You're better off coming with me

I'm afraid of nothing, it's the only way to be  
I'm afraid of nothing, not today
