

Monster, No One Can Stop Us

Here we are again, ready to burn down the place
They've turned down the lights, that's the cue for us to start
No motherfucker's going to stop us now!
Up here on the stage sweat's running down my face
It's too hot in here, I don't know how we can still breathe
No motherfucker's going to stop us now, and that's for sure!
We are here, We're here just for you
You know exactly what to do
Let's put this place on fire
You hear the guitar sound, and your blood is boiling down
And now the damage's done, there's nowhere for you to run
There's nothing you can do to stop it now!
'Cause that's like a disease, it puts you down on your knees
But you want it so much, the more you get, the more you want
There's nothing you can do to stop it now, and that's for sure!
I know that they can't stop us now
(No one can stop us!!!)
You know that they can't stop us now
(No one can stop us!!!)
'Cause that's the right place for us all
Loud and proud, we heard the call
It doesn't matter what they say
We'll make it happen, yes we can
We'll never gonna give up
I know we'll stand together 'till the end
Now you're on the stage with a guitar on your hands,
And by the smile on your face, I know what is taking place
No motherfucker's going to stop you now, and that's for sure
