

# Monster, Us Against The World

They say that we can't make it  
That we're just a fraud  
But I say, let them talk, then  
The time will prove they're wrong  
So let the games begin  
And you will see us win  
That's it! Enough with talking  
Watch and learn with us  
We came to the battle  
With our swords, axes and stones  
Knowing it will be us against the world  
Let's fight the good fight  
They say the contender  
Will beat us anyway  
But I prove that we're stronger  
The arena is our place  
So let the games begin  
And you will see us win  
Let them buy the audience  
We prefer to do it our way  
We came to the battle  
With our swords, axes and stones  
Knowing it will be us against the world  
Ready for the battle  
We're sword, "X" and Stone  
Knowing it will be us against the world  
Let's fight the good fight  
If you wanna fight with me  
We'll see who will lose in the end
